

PUMPKIN MOON HERB FARM

Somerset, NS (902)542-0831 info@pumpkinmoonherbals.com
All our herbs are certified organic & our soaps are individually handcrafted in our studio.

Soap Information Sheet

Our soaps are uniquely original because they are formulated and made by a herbalist, and our herbal plant ingredients are certified organic. Each soap in our signature line is a combination of herbal oils and fresh herbs that we produce on our farm, plus pure essential oils and an impressive array of other skin-loving, natural ingredients. The result is a range of thoroughly effective skin-care soap bars, with something for all skin types. Generous quantities of essential oils mean they smell life-affirming and energizing too. Everyone loves our soap! We hope you will try a bar today.

Classic Lavender: Despite all the other options, our gorgeous lavender soap continues to be in a league of its own. Made with fresh infused lavender oil, lavender blossoms, and generous amounts of pure lavender essential oil, this soap is what loving lavender is all about.

Cranberry Orange Spice: This soap conjures up feelings of cozy wood fires and hot mulled cider. Made with cranberry seeds, rosehip powder, ground cloves, and orange peel power, we also add these essential oils for a glorious scent: allspice, cinnamon, cloves, frankincense, nutmeg, mandarin orange, sweet orange, and star anise.

Fresh Lime & Aloe Vera: One of our most unique and top-selling soaps, this glycerine bar combines freshly-squeezed limes and aloe vera gel with lots of pure lime essential oil, for a fresh, clean, invigorating scent that says, Yes!

Gardener's Natural Scrub Bar: We know how hard all you gardeners work, so we've created a natural pumice soap to clean your hands after a long day's work. We use pure spearmint & rosemary essential oils to invigorate your senses, freshly infused comfrey oil and oatstraw herb to soothe your rough skin, and apricot hulls, loofah fibres, poppy & cranberry seeds, pumice powder, and rhassoul clay to thoroughly and naturally exfoliate and clean your skin.

Ginger w/ Chamomile & Honey: Freshly-grated ginger, chamomile tea, infused chamomile oil, chamomile blossoms, fresh honey, and ginger essential oil in a glycerine base. This is wonderful for the skin, and a joy to smell.

Green Tea Patchouli: Go ahead, re-live the 60's once again...! We know how much some of you love patchouli. So in this very special bar, we've combined freshly-steeped green tea with patchouli herb, jade mica, nettle leaves, and lots of pure patchouli essential oil, to give you the hit you are looking for! Also exceptional for the skin.

Growing Older Gracefully: Soap for mature and aging skin. All the goodness of carrot root powder, marshmallow root, infused calendula oil, carrot root oil, myrrh gum, vitamin E oil, and calendula petals in a soothing, delicate bar for dry, aging, sensitive, wrinkled or tired skin. A very nourishing soap, with carrot seed and sweet orange essential oils to round out the lovely offering.

Healing Herbs & Goats Milk: Our small herd of dairy goats provide the inspiration for this bar, while infused comfrey & yarrow oils, neem powder, vitamin E oil, calendula petals, yellowdock root powder, nettles, witch hazel, soapwort, oatstraw, & pure sweet birch essential oil does the rest. What an amazing blend of skin-healing ingredients! The best bar for those with eczema, psoriasis, and other skin conditions that require ultra-nourishing soap. (But at the end of the day, it is the terrific scent that we think makes this such a popular choice!)

Maple: This simple bar is made with nourishing aloe ferox herb & maple syrup fragrance oil. It has a heady, deeply-satisfying true maple scent, reminding us of sap, syrup, and all things Canadian-maple.

Peace of Mind: This gentle, pale pink soap combines purple sacred basil leaves, organic oatmeal, and lavender blossoms with lavender herbal oil and pure ylang ylang essential oil, to conjure up feelings of deep peace & relaxation. Sweet, gentle, lovely.

Pumpkin Pie: Our 'Pumpkin Moon Farm' name-sake soap. Delicious, yummy pumpkin pie fragrance oil with ground nutmeg & pure carrot oil. Spicy, pumpkin-y, just how we like it around here!

Rosewater & Glycerine: Our beautiful fresh herbal rosewater in a glycerine bar, with ground rose petals, rosehip powder, orris root powder, gently scented with pure rose absolute, rosewood essential oil, and a drop of rose fragrance oil. An astringent, healing bar for both dry and oily skin, a toner with antiseptic and acne-clearing properties. The sweet smell of roses is also a wonderful nervine.

Spice Soap for Men: They're just so hard to buy for...! Our solution is a refreshing, clean, spicy glycerine soap made with honey and pure essential oils of cinnamon, allspice, basil, lime, spearmint, and wintergreen. For the sports bag or at home, this fresh and invigorating bar is the perfect choice for him.

Sweet Orange Soap for Kids: Our little ones need a soap that is gentle & nourishing for their more-delicate skin. We combine fresh chamomile & calendula petals (the best children's herbs), infused chamomile and calendula oils, and orris root powder, with sweet orange, fennel, and chamomile essential oils, for a beautiful, safe, delicious-smelling children's and baby's soap bar.

Triple Lemon Cream: We love the fresh, clean scent of our creamy citrus soaps. Here we combine freshly-squeezed lemons with tumeric and orris root powders, and add a big dose of pure lemon essential oil. Great for teenage skin, acne, oily skin, and also a super wake-up morning bar.

White Vanilla Bean: Our silky smooth vanilla soap is speckled with ground vanilla bean seeds, and scented with pure vanilla essential oil and a velvety vanilla fragrance oil. Simple, elegant vanilla - one of our most popular bars.

Wise Sage, White Grapefruit: We all have a wise sage inside of us, and this soap helps call that forth. With white sage leaves, blue vervain herb, and pure grapefruit essential oil, this pale blue soap is both emotionally uplifting and nicely cleansing. Ohmmm...

Ingredients: As well as the specific ingredients listed with each soap, we also use the following: coconut, palm, safflower, sunflower, olive, & castor oils, lye, sorbitol and sorbitan oleate (both sugar alcohols derived from berries and fruit, used as thickeners, emulsifiers and moisturizers), and soybean protein (used as a conditioner). That's it.
